Latam High Yield Bond Fund, a sub-fund of ZCH AM SICAV, ZCH (ISIN: LU1576657230)

The management company of the Fund is SANNE LIS S.A.

Objectives and investment policy

The Sub-Fund seeks a high level of current income and capital appreciation by investing primarily in high-yielding, sub-investment grade securities of companies which generate a significant part of their income in or from Latin America and/or which have their registered office in Latin America.

This Sub-Fund is actively managed and doesn't use a reference Benchmark.

The Sub-Fund invests at least 70% of the assets in fixed-rate or floating-rate securities issued by Latin American Companies. These securities will have a credit rating under BB+ (inclusive).

Up to a maximum of one third of the assets of the Sub-Fund may be invested in convertible and warrant bonds, in fixed-interest or floating-rate securities and money market instruments, issued by companies from other recognised countries and on-sight deposits or deposits repayable on demand.

The Sub-Fund may suit investors seeking for a greater capital growth than cash holdings or just through government bonds or a combination of capital growth and income, while keeping the risk associated with their investments to a medium level. As the Sub-Fund invests in high-yielding sub-investment grade securities, it is

most suited for investors willing to accept higher risks in order to potentially generate higher futures returns.

The investments will be denominated in USD.

The Investment Manager may, at its discretion, use financial derivative instruments or invest in Exchange Traded Funds to manage the exposure of the Sub-Fund's assets to interest rates risk.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

The revenues of the fund will be distributed yearly after the financial year end.

This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

More about this rating

- The risk category is based on return volatility over the last five years. The method used for this estimation depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest category does not mean 'risk free'.

Why is this fund in Category 5?

The fund will be mainly invested in fixed-income instruments (including convertible bonds) issued by Latin American companies and then will be mainly exposed to emerging markets bonds. Emerging markets are at an early stage of development which may involve a high level of price volatility, lower market transparency, regulatory hurdles, corporate governance and political and social challenges. There is increased return potential and higher risk as reflected in the risk category.

Further material risks:

- **Credit risk:** the sub-fund may lose money if an issuer is unable to meet its financial obligations, such as the payment of principal and/or interest in an instrument, or goes bankrupt.
- **Operational risk:** the sub-fund's operations depend on third parties and it may suffer disruption or loss in the event of their failure.
- **Liquidity risk:** the sub-fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to the sub-fund.
- **Financial techniques:** the sub-fund may use financial derivative instruments to hedge (minimize) risks. This may not be effective and, depending on market movements, may reduce gains or accentuate losses in the sub-fund.
- **Counterparty risk:** a counterparty may fail to repay or otherwise withstand contractual obligations to the subfund.

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.81%
Charges taken from the fund under certain specific conditions	
Performance fee	none

The **entry charge** and **exit charge** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

These **ongoing charges** are the actual charges over the year ending 31/12/2021. They can vary from year to year. They include the Depositary, ticket, Central Administration and the Management Company fee and tax d'abonnement. All other costs are paid by Zurich Administradora General de Fondos S.A., Chile. They do not include:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information, please see the charges section of the fund's prospectus, which is available at <https://lis-aifm.com/documents>.

Past performance

The past performance value is not a reliable / is a limited guide to future performance

The chart shows the class's investment returns calculated as percentage year-end over year-end change of the class net asset value. In general any past performance takes account of all ongoing charges, but not the entry charge. If the sub-fund is managed against a benchmark, its return is also shown.

The sub-fund was launched in 2014. The Class was launched in 2017.

The past performance is calculated in USD.
